

PURE ESSENTIAL OIL
WORKS

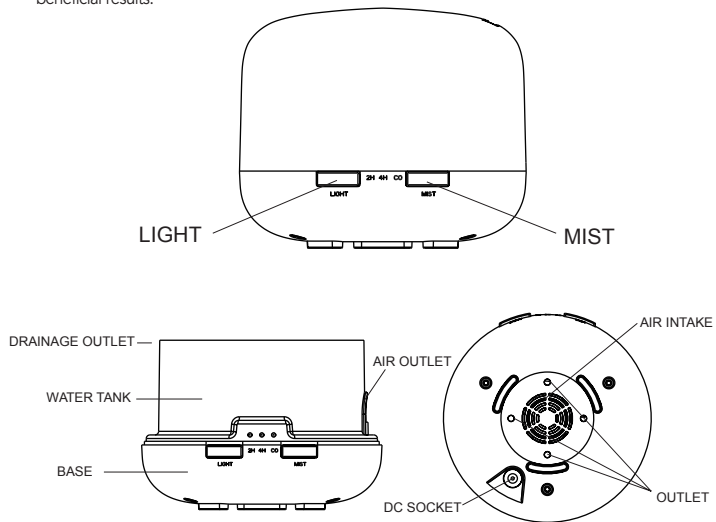

Nirvana Ultrasonic Aroma Diffuser

IMPORTANT INSTRUCTIONS — RETAIN FOR FUTURE USE

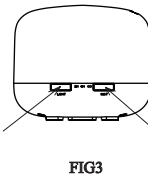

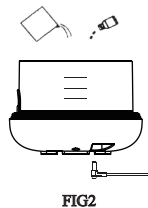

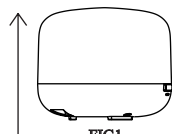

Congratulations on your purchase of the **Pure Essential Oil Works Nirvana Ultrasonic Aroma Diffuser**. Please read the instructions and safety tips before use. Your diffuser comes with a one-year limited warranty. If for any reason you need service, please call 800-520-6000.

This aroma diffuser uses ultrasonic technology to mist the water without heat for the most beneficial results.

How to Operate

- Put the unit in stable position. Remove the cover vertically. See FIG1.
- Attach the AC plug to the DC-IN jack on the bottom of the unit. See FIG2.
- Add clean water to the water tank without exceeding the maximum waterline of 300 ml. DO NOT refill while the unit is in operation. DO NOT use hot water or mineral water.
- Add essential oil into the water (Advise one drop oil per 100 ml water). Use more or less oil depending on the level of intensity you prefer. See FIG2.
- Put the cover back on the unit, rotate the cover to adjust the mist outlet to the right position. DO NOT switch on the unit without the cover shielding the water tank.
- Attach the AC adapter plug to power outlet.
- Press the "Light" button to select the LED light to change gradually or to a fixed color by pressing button again during auto changing mode. Press and hold button for 3 seconds to turn light off. See FIG3.
- Press the "MIST" button to switch on and start in continuous mode. To switch to intermittent mode, press and hold "MIST" button for 2 seconds. The indicator light will flash and the diffuser will make two "beeps". To return to continuous mode, hold button for 2 seconds again and the diffuser will make one "beep." Press the "MIST" button to set the desired duration, choose from 2H, 4H, Co (continuous) or OFF. The unit will power off automatically when it reaches the end of operating time. See FIG3.

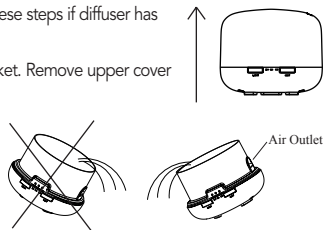

- When not in use for an extended period, pour any remaining water from the reservoir before storing it in a cool and dry place.
- If the water level inside the unit runs too low, the unit will automatically stop operating.

Maintenance

For best operation and safety, please follow these steps if diffuser has been used for 5-6 times or 2-3 days:

- Disconnect the adapter from the power socket. Remove upper cover vertically.
- Drain the remaining water from the drain outlet side. Do not drain the water from the air outlet side.
- Remove the adapter from the main body.
- Use a gentle, diluted kitchen detergent on a damp cloth to clean the diffuser.
- Fill water tank with water to fill line and operate unit for 30 minutes. Then remove water and dry.
- If it is dirty inside the mist outlet, please remove the inner cover to clean it.

Note:

- Do not use the medical dilution benzene ethanol on unit. This can cause damage to the product or smear the markings on the product.
- Be sure to use a neutral detergent.

Precautions

In order to avoid damage to the diffuser:

- Do not modify, disassemble or repair this product. If for any reason you need service, please call 800-520-6000.
- Do not stab, twist or stretch the power cord. Do not place near heat. If the power cord is damaged or the socket is loose, please do not operate unit.
- Place unit on a flat, stable surface.
- Drain water after each use from the drain outlet side of unit.
- Only use neutral detergent to clean the unit.
- Do not allow mist to spray directly at person.
- Disconnect adapter from power outlet when performing maintenance.
- Do not put nails, needles or other objects at air outlet or the gap of the main body.
- Use only tap water in unit.

Specifications

Size	5.2" Round X 4.3"H
Weight	About .56 lbs. (adapter not included)
Supply power: input	AC100-240V 50/60Hz
output	DC 24V 650mA
Power	10W
Ultrasonic frequency	2.4MHZ
Timer	2H/4H/Co (continuously working until waterless)
Mist	35 ml/H
Water capacity	10 oz./300ml
Main material	PP
Accessories	Adapter, user manual
